

Project 2

- What is the largest network you managed to deal with for each type of topology and algorithm?

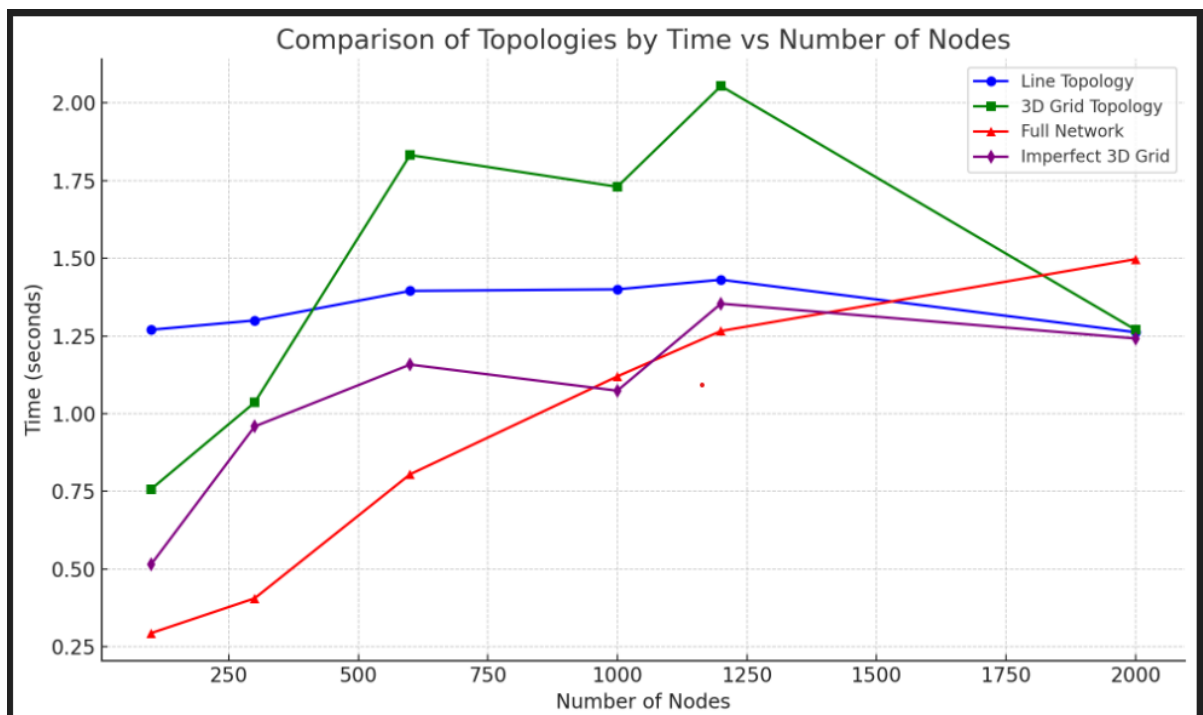

Gossip:

	Line	3D	Full network	Imperfect 3D grid
Number of nodes	1300	10^6	800	1800

Pushsum:

	Line	3D	Full network	Imperfect 3D grid
Number of nodes	10^5	10^6	10^4	10^5
